Homi Fashion & Jewels Exhibition shines once again in Milan with a new edition

Homi Fashion & Jewels returns to Fiera Milano (Rho) from the 17th to the 20th of February 2023, with sparkling proposals of jewelry, fashion, style and innovative ideas. More than 300 brands, 39% from 22 European countries, including France, Greece and Spain, will participate in this prestigious show. A trendy event in which we will discover the new trends and inspirations that will be at the core of the next Spring/Summer 2023. Milan, the capital of Haute Couture, will host for four unmissable days, a show that is also a multisensorial journey into the enchanted world of jewelry, bijoux and fashion. The **Opening Conference** dedicated to Upcoming Trends will explain how the metaverse influences the fashion and jewelry industry. The panel will take place on **17th February 2023 at 11:00 am.** It will be moderated by **Gloria Maria Cappelletti**, Editor in Chief and Creative Director of RED-EYE Metazine and will feature as special guests **Alba Cappellieri**, Full Professor of Jewelry Design and Fashion Accessories at the Polytechnic University in Milan and the Israeli Jewelry Designer **Ayala Bar**.

Another important synergy is the concurrence (from the 19th to the 22nd of February 2023) with other shows in the fashion world (MICAM Milano, MIPEL and TheOneMilano) at Rho Fair Centre.

Natama Design

The precious collaboration with **Poli.Design** continues with two special areas: **Visionaries** and **Visions of Tomorrow- Fashion Forecast 2025**. A true incubator and forecaster of trends and changes that will determine the future social and style phenomena.

The **Visionaries** space hosts designers that interpret the sign of the times well. More than 120 selected Designers will showcase over 150 creations, the fruit of their expertise and inspiration, following the fil rouge of the two macro trends Too Good to Be True and Like me, Like me, not **homifashionjewels.com/eventi** presented during the previous edition of Homi F&J.

Alba Cappellieri, Full Professor of Jewelry Design and Fashion Accessories at the Polytechnic University in Milan, explains: "*Visions of Tomorrow – Fashion Forecast 2025 outlines the guidelines for the next two years for fashion jewelry and accessories. Research that not only explores materials and shapes but defines design directions to translate the scenarios into products capable of expressing their DNA according to formal, material and technical customization. They are real guidelines that* ***HOMI Fashion&Jewels*** *offers to companies and designers to intercept the markets and become competitive.*"

BEYOND BODIES focuses on uniqueness, obtained through extravagant and audacious shapes that use the body as a source of inspiration. It is no coincidence that the protagonists of this exhibition are silhouettes that reproduce anatomical profiles, facial ornaments and details of the human figure. Ideal for those who love to leave their mark and use the body to express their identity in an unconventional way.

SUPERCRAFT tradition and innovation meet and collide to find an expressive form in surfaces and volumes that look to the past and reinterpret it in contemporary solutions. Between new expressive languages and nostalgia, Supercraft focuses on social and environmental sustainability, as well as on technology and attention to detail.

Also confirmed at the show are professional photo shoots and a rich calendar of catwalks in collaboration with **Class TV Moda** and presented by **Jo Squillo.** This show is a unique opportunity to discover new creations, to participate in a complete jewelry show with an international vocation and avant-garde proposals.
